SUMMARY

Mobile developer with 6 years of commercial React Native experience (7+ years in IT). I take products from prototype to release on the App Store and Google Play and have led mobile teams. Over 6 years in mobile I have shipped 1000+ production releases (including a suite of 22 white-label apps), cut the crash rate and improved app stability by 94% over 3 years, and grew a B2C app to 1,000,000+ downloads. I set up CI/CD, automated testing and code review, and mentor developers. I also handle frontend work (Vue, TypeScript). English C2 (near-native), open to remote work and relocation.

CORE SKILLS

Mobile: React Native, TypeScript, Redux, MobX, Swift (iOS), Kotlin (Android); App Store & Google Play releases

Frontend: Vue, JavaScript, HTML/CSS, GraphQL

Backend & data: Node.js (Express), REST API, Firebase, MySQL

Practices & tools: CI/CD, automated testing, code review, Git, Jira, Figma, Agile

Also: Unity, LaTeX, adopting AI tools in development

EXPERIENCE

Frontend Developer (Vue) — MD Audit

May 2025 – Present · Remote

- Building web interfaces in Vue for internal audit services.
- Cut the web team's time-to-market by 30% by adopting AI tools in the development process.

Mobile Dev Lead — Softline AG

Jun 2022 – May 2025 · Remote

- Led the mobile development team (React Native, TypeScript); established a stable release cycle with regular production releases.
- Cut the crash rate and improved app stability by 94% over 3 years.
- Introduced code review, CI/CD and automated testing, reducing regression time and production defects.
- Took part in hiring and mentoring junior developers; grew the team's engineering culture.

Team Lead, Mobile Development — Briskly

Mar 2021 – Jul 2022 · Moscow

- Led development of the B2C app B-PAY (1,000,000+ downloads); coordinated a team of 4 developers.
- Shipped the Briskly Business CRM app for retail-network merchants.

Senior Mobile Developer — Sycret

May 2020 – Apr 2021 · Moscow

- Migrated a CRM app from C#/Xamarin to React Native — a single codebase for iOS and Android.
- Maintained a line of 22 white-label apps on iOS and Android.
- Implemented REST API, push-notification and analytics integrations.

Virtual Environment (VE) Designer — University of Nottingham Ningbo China

Jun 2019 – May 2020 · Ningbo, China

- Built a 4D VR environment for teaching civil engineering; results published in IEEE conference proceedings.

EDUCATION

University of Nottingham (UNNC) — BSc Computer Science (Bachelor's degree)

Aug 2017 – Jun 2020 · Ningbo, China

Humber College — Computer Engineering Technology Diploma (college diploma)

Aug 2014 – May 2017 · Toronto, Canada

LANGUAGES

Russian — native · English — fluent, C2 (near-native) · Chinese — beginner · Japanese — beginner
